

NORTON COLLEGE

Beyond Expectations

Our Ref: JJ/SSt

4th June 2020

Dear Year 6 student

My name is Mr Stones and I am the Year 7 Progress Leader at Norton College.

I work closely with Miss Alngohuro who is the Year 7 Pastoral Leader. I know that you may have already met us but please do not worry if you have not. In this pack you will find our 'All About Me' profiles to help you to get to know us. We are really looking forward to seeing you.

It is our job to work with all the staff at Norton College to make sure that you enjoy your move to secondary school. Our three magic words will shape everything that we do together: ready, respectful, safe.

At this time of the year I normally try to visit your school to meet you and introduce myself. I am sorry that I will not be able to visit you this year. However, I am really looking forward to seeing you as a Year 7 student and I know that the staff at Norton College are also really excited.

I have included a small 'fact-finding' activity for you. This activity is to help you learn more about Norton College. To help you with this activity you can use the school map which is also in this pack. You can also use the school website (www.nortoncollege.net). If you have already visited us before you might be able to answer some of these questions without using anything else to help you.

Please do not worry if you cannot find the answers. When Norton College opens we will work with you to make sure that you know everything you need. You do not need to remember anything.

I have also included an extra booklet of activities which you can try when you would like to. An adult can contact me through email if you would like to share your answers with me for any of these tasks or activities. My email address is SST@nortoncollege.net. Alternatively, you can bring your work with you on your first day at Norton College to share it with your mentor.

I have also included an example of a year 7 student timetable. We work on a two week timetable here at Norton College. The first five rows are Week 1, and the second five rows are Week 2. There are five columns because we have five lessons in a normal school day.

You will receive your personal timetable when you join us and I will explain to you what it means. You do not need to learn or remember anything.

There is also some information available on our website at www.nortoncollege.net/year6transition.

I will continue to post guidance and activities here to support you.

I am really looking forward to seeing you,

Mr S O J Stones

Progress Leader (Year 7)

Associate Leader (Maths, Computing, Business & Economics)

National Subject Leader (Ormiston Academies Trust)
